### **Who should apply ?**

The Regent's School's standard is high and its students are expected to have ability above the average of good schools in England, both academically and sociably. This is why our school was chosen to be a full member of a unique organisation called "Round Square" ([www.roundsquare.org](http://www.roundsquare.org)), which consists of only 62 outstanding schools in the world. Therefore we encourage only well rounded persons who have both academic ability (top 10% in classes) and social skills as well as those who have keen interest in extracurricular activities such as music, sport, outdoor pursuits and community service, to apply. In addition, good role model setting is strongly expected of the scholars, i.e. GC Scholars are required to lead others by being good role models.

Applications for the scholarship competition are welcome from students with the following profile:

- ü Date of birth: preferably between *1<sup>st</sup> September 1991 – 31<sup>st</sup> August 1992* or have two more years of high school left.
- ü Very strong academic record, i.e. top 10% in Maths and English class (must be confirmed by the current school's Principal)
